Suncoast Chemicals Company
6385 150th Ave. N.
Clearwater, FL 33760

Subject: Label Amendment – Revised Master Label - Revised FIRST AID section
Product Name: T.I.C.A. TABLETS
EPA Registration Number: 46043-20
Application Date: April 25, 2017
Decision Number: 530844

Dear Ms. Madden:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

NET WEIGHT: 4 POUNDS

[SIDE PANELS]

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

DANGER. Corrosive. Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL AND CHEMICAL HAZARDS: Strong Oxidizing Agent. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire or explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well-ventilated area. Flood with large volumes of water if necessary.

FIRST AID:

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth. Call a poison control center or doctor for further treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

HOTLINE NUMBER:
1-800-255-3924

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN:
Probable mucosal damage may contraindicate the use of gastric lavage.

4 POUND CHLORINATING CARTRIDGE FOR FLOATERS AND FEEDERS

Protects against bacteria and algae. Stabilized for extended chlorine life. Slow dissolving. Total solubility. The tablets in this cartridge will provide effective chlorine residual of 1 to 1.5 parts per million (ppm) in 10,000 gallons of water for 9 weeks under normal conditions. Refillable.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

Use with Floater or Feeder made by E-Z Chlor, Guardex, Anthony and CPC. In a pool with no visible sign of algae, follow these instructions.

START UP

1. Bring chlorine level to 1-1.5 ppm. Follow the instructions below for your feeding device.
2. The day after the chlorine residual reaches 1-1.5 ppm, add Stabilizer/Conditioner to stabilize your pool. Follow label directions.
3. Adjust pH to the Ideal range 7.2-7.6

FOR USE IN DISPOSABLE FLOATERS

1. Cut off the air vent that sticks out at top of cartridge.
2. Punch a hole through the lowest indentation on each side of the cartridge and insert into the floater. Do not punch holes in the bottom. If more chlorination is needed, punch as many holes as needed on each side starting at the lowest indentation and working up until the pool's free chlorine residual reaches 1-1.5 ppm.

FOR USE IN E-Z CHLOR FEEDER

1. Punch all indentations on the bottom of the cartridge (or cut off three water vent areas that stick out the side near the bottom of the cartridge.) Two cartridges may be needed for a pool of 30,000 gallons or larger.
2. Do not cut off the air vent at the top of the package.
3. Make sure that the screw lid is on tight.
4. Punch a hole through the lowest indentation on each side of the cartridge.
5. Insert the cartridge into feeder. If more chlorination is needed, punch more holes on each side of the cartridge starting at the lowest indentation and working up until the free available chlorine residual remains within the range of 1-1.5 ppm.

FOR USE IN GUARDEX FEEDER

1. Cut off air vent that sticks out near the top of the cartridge.
2. Cut off the three water vents that stick out the side near the bottom of the cartridge. Two cartridges may be needed for a pool of 30,000 gallons or larger.
3. Insert the cartridge in the feeder, adjusting the cartridge height until the free available residual remains within the range of 1-1.5 ppm.

TO REFILL CARTRIDGE

1. Remove absorbent packet before reuse. Not required for pool care.
2. Fill empty cartridge with T.I.C.A 1 Inch Tablets.

DANGER – Use only 1 Inch Tablets.

HOW TO CALCULATE POOL CAPACITY*

*Dimension in feet

SHAPE OF POOL	GAL. OF WATER
Rectangular.....Ave. Depth x Ave. Length x Ave. Width x 7.5	
Circular.....Diameter x Diameter x Ave. Depth x 7.5	
Irregular.....Consult Pool Builder	

NOTE: Reentry into treated pools is prohibited above levels of 3 ppm chlorine.

Heavy bather usage or the use of oils or lotions may increase the chlorine demand of the pool resulting in the need for more frequent checks on chlorine residual.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal.

STORAGE: Keep product in tightly closed container when not in use. Store in a cool well-ventilated area away from heat or open flame. In case of decomposition, isolate container, if possible, and flood with large amounts of water to dissolve all material before discarding.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State pesticide or Environmental Control Agency, or Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then recycle, if available, or dispose of liner in a sanitary landfill or by incineration if allowed by State and local authorities. If drum is contaminated and cannot be reused, dispose of in the same manner.

NOTICE TO BUYER

Seller warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in accordance with the directions under normal conditions of use. This warranty does not extend to the use of this product contrary to label instructions or under abnormal use conditions, or under conditions not reasonably foreseeable to the Seller, and Buyer assumes the risk of any such use. Seller disclaims all other warranties, implied or expressed, including any warranty of FITNESS OF MERCHANTABILITY.
